

Ocean Pointe Residential CA
Notification for Garage Light Replacement
(Approved March 2015)

The Design Review Committee has pre-approved the attached LED Garage Light replacement for Ocean Pointe homeowners. This light may be purchased at Home Depot or where available.

Since the replacement light is slightly smaller than the original light, the area must be either painted or cleaned really well so the newly exposed area is not noticeable.

Please sign and submit this notification indicating that the garage light has been replaced. (There is no application fee and no formal Design approval required)

Mail To: **Community Center (OPRCA)**
